SPONSORSHIP PACKAGE 2026 ASCE EASTERN GREAT LAKES STUDENT SYMPOSIUM HOSTED BY YOUNGSTOWN STATE UNIVERSITY

To Whom It May Concern,

We are thrilled to invite you to become a valued sponsor of the upcoming 2026 ASCE Eastern Great Lakes Student Symposium. This annual regional event brings together hundreds of top civil engineering students from across Ohio and Michigan to compete, collaborate, and connect with industry leaders like you.

Scheduled for April 9-11, 2026, the symposium will feature a range of technical and design-based competitions-including Concrete Canoe, Steel Bridge, Sustainable Solutions, and more - providing a platform for students to apply their classroom knowledge to real-world challenges.

With an anticipated attendance of over 400 students, faculty members, and professionals, this event offers a unique opportunity to engage with the next generation of civil engineers. Your support will directly contribute to the success of the event by helping us provide essential resources such as materials, equipment, meals, awards, and professional networking opportunities.

By partnering with us, your company will receive exposure throughout this event, recognition on promotional materials and digital platforms, and access to talented, driven students who are actively seeking internships and full-time employment. We offer a variety of sponsorship tiers to fit your level of support, all of which are outlined in the pages that follow. Whether you're a returning partner or considering sponsorship for the first time, your investment will have a lasting impact - not only on the success of this event, but on the future of civil engineering.

Thank you for considering this opportunity to support our students and the ASCE community. We look forward to partnering with you.

Sincerely,

YSU ASCE Student Chapter

AMERICAN SOCIETY OF CIVIL ENGINEERS

About Us

OUR HISTORY

The YSU ASCE Student Chapter was first chartered in 1960 and has been competing in the Steel Bridge and Concrete Canoe Competitions for over 30 years. YSU hosted the regional conferences in 1985, 1993, and 2008.

OUR VISION

Through conferences, presentations, and competitions, members are provided valuable experiences through working directly with industry professionals. YSU ASCE prepares students to be successful in the transition into the workforce.

OUR MISSION

Allow the Civil Engineering students of YSU to maximize their professional and academic development within the civil engineering discipline.

Symposium 2026 Competitions

Concrete Canoe

This competition designs and builds a full scale canoe to be used in various races. It also showcases students' design skills and innovative processes. Constructed canoes will race in Mosquito Lake to test the prototypes!

Steel Bridge

This competition features a steel bridge designed and constructed by a team of university students. Students must design and fabricate a bridge that can be assembled the quickest and withstand various loading tests. Scoring is a combination of construction time, cost efficiency, and bridge strength!

Surveying

This competition requires surveying teams to take part in various field tasks to test their speed and accuracy and map out a designated site. Most accurate survey wins the competition!

Water Treatment

The Water Treatment Competition includes the research, design, presentation, and hands-on construction of a filter made from supplies commonly found in homes/businesses. Students must collaborate in order to apply wastewater treatment principles and provide a solution for a real-world situation.

Sustainable Solutions

The ASCE Sustainable Solutions Competition challenges students to develop a stronger understanding of sustainability and learn to incorporate sustainable solutions into everyday problems that engineers may encounter. Students are encouraged to be creative in their solutions and use all resources available.

Timber Strong

The Timber Strong Competition seeks teams to design and build a 2-story wood light-framed building that is sustainable, aesthetically pleasing, and structurally durable.

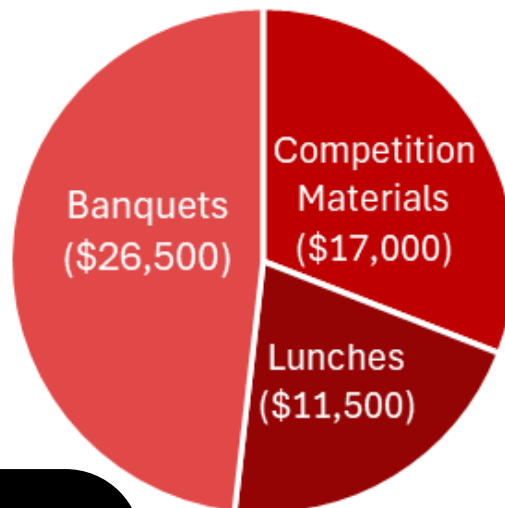

Hosting Budget Breakdown

What does it take to host?

We are honored to be hosting the 2026 ASCE Eastern Great Lakes Student Symposium Competition. Hosting this event would not be possible without the help of our generous sponsors. Below find out what your partnership will help accomplish and the benefits you will receive for donating.

Budget Breakdown

Anticipated Total Cost:
\$55,000
