## Safety Message: Measles Outbreak

Attendees should be advised that the Texas Department of State Health Services is reporting a [measles outbreak in the South Plains and Panhandle regions of Texas](#). Measles is a highly contagious viral infection, which can cause life-threatening illness to anyone who is not vaccinated. Measles can be prevented with the measles-mumps-rubella (MMR) vaccine. Attendees are strongly encouraged to confirm that they are up to date with their vaccinations or make arrangements to get vaccinated before traveling to the symposium.
