Student Symposium Paper Competition

The ASCE Student Symposium Paper Competition emphasizes the importance of being able to write and present a paper as essential communication skills for all engineers and often necessary for advancement in your career. The competition consists of a paper submission and a presentation at the student symposium.

The topic for the **2026 ASCE Indiana-Kentucky Student Symposium** Paper Competition: Daniel W. Mead Prize for Students Topic – [click here for topic](#).

Submission Deadline: March 1, 2026

Submission Email: 2026asceinky@gmail.com

****All papers must have a statement at the bottom attesting that, except where otherwise cited, the submission is the work of the student author and not AI or NLP. Submissions without this statement will not be considered for recognition.**

For student chapters in Regions 1-9 participating in their regional student symposium, papers must be submitted to the student symposium host by March 1, 2026, using the host's preferred submission process as outlined above. A separate submission to ASCE is not required for the Daniel W. Mead Prize for Students Competition, as the student symposium submission will serve as the official entry for both the Student Symposium Paper Competition and the Mead Paper Competition. The winning paper from each student symposium will advance to the Society competition for final review, with the official national winner announced in May 2026.

*****SOCIETY-WIDE FINALS ELIGIBILITY REQUIREMENT*****

Both the Student Symposium Paper Competition submission and the presentation are mandatory for any ASCE Student Chapter participating in the **2026 ASCE Indiana-Kentucky Student Symposium** that wishes to be eligible to advance to ASCE Society-wide finals competitions and the SSBC National Finals. Competitions requiring participation include:

- ASCE Concrete Canoe Competition
- ASCE Sustainable Solutions Competition
- ASCE UESI Surveying Competition, and
- AISC/ASCE Student Steel Bridge Competition.

Note: Any papers/presentations created for any other competition do not count as an entry into the Student Symposium Paper Competition.

ASCE Society Competition Eligibility Requirements

~~Competitions that advance to an ASCE Society-wide finals competition include the ASCE Concrete Canoe Competition, ASCE Sustainable Solutions Competition, and ASCE UES Surveying Competition. The AISC/ASCE Student Steel Bridge Competition advances to the SSBC National Finals and follows the eligibility requirements below. See SSBC Rules for more information.~~

The purpose of student competitions is to provide student members with career-enrichment opportunities to gain hands-on, practical experience and leadership skills. Society Competitions are an important and special opportunity to showcase the engineering and professional skills of student teams. As such, mutual respect is required for all stakeholders, including competitors, judges, hosts, and guests. Invitations to the Student Symposia and the Society-wide finals competitions/ASCE Civil Engineering Student Championships are a privilege, not a right. Failure to act professionally can result in sanctions, disqualifications, and loss of invitations. Please note that the requirements for eligibility for Society-wide finals competitions are more stringent than the requirements for participation at the student symposia competitions. The following qualifications are required of all ASCE Student Chapters to compete at the Student Symposia Competitions:

An ASCE Student Chapter must:

1. Be in good standing with ASCE:

- Have paid their annual dues, as received by ASCE, **no later than the start of their Student Symposium.**
- Have submitted their student chapter's full Annual Report or EZ Annual Reporting Form **no later than February 1, 11:59 p.m. EST.**
