Student Symposium Paper Competition

The ASCE Student Symposium Paper Competition emphasizes the importance of being able to write and present a paper as essential communication skills for all engineers and often necessary for advancement in your career. The competition consists of a paper submission and a presentation at the student symposium.

The topic for the 2027 ASCE Student Symposium Pacific Northwest Student Symposium Paper Competition: **Daniel W. Mead Prize for Students Topic: Engineering for the Unprecedented: Evaluating the Civil Engineer's Professional and Ethical Duty to Design Infrastructure Beyond Minimum Standards.** [Click here for details.](#)

Submission deadline is: March 1, 2027

Submission email/link is: 2027pnwsymposium@gonzaga.edu

For student chapters participating in their regional student symposium, papers must be submitted to the student symposium host by March 1, 2027, using the host's preferred submission process as outlined above. The student symposium submission will serve as the official entry for both the Student Symposium Paper Competition and the Daniel Mead Paper Competition. The winning paper from each student symposium will advance to the Society competition for final review, with the official overall winner announced in May 2027.

*****SOCIETY-WIDE FINALS ELIGIBILITY REQUIREMENT*****

Both the Student Symposium Paper Competition submission and the presentation are mandatory for any ASCE Student Chapter participating in the **2027 ASCE Student Symposium Pacific Northwest Student Symposium** that wishes to be eligible to advance to ASCE Society-wide finals competitions and the SSBC National Finals. Competitions at our student symposium **requiring** participation include:

- AISC/ASCE Student Steel Bridge Competition.

Note: Any papers/presentations created for any other competition do not count as an entry into the Student Symposium Paper Competition.

ASCE Society Competition Eligibility Requirements

Competitions that advance to an ASCE Society-wide finals competition include the ASCE Concrete Canoe Competition and the ASCE Sustainable Solutions Competition. The AISC/ASCE Student Steel Bridge Competition advances to the SSBC National Finals and follows the eligibility requirements below. See [SSBC Rules](#) for more information.

The purpose of student competitions is to provide student members with career-enrichment opportunities to gain hands-on, practical experience and leadership skills. Society Competitions are an important and special opportunity to showcase the engineering and professional skills of student teams. As such, mutual respect is required for all stakeholders, including competitors, judges, hosts, and guests. Invitations to the Student Symposia and the Society-wide finals competitions/ASCE Civil Engineering Student Championships are a privilege, not a right. Failure to act professionally can result in sanctions, disqualifications, and loss of invitations. Please note that the requirements for eligibility for Society-wide finals competitions are more stringent than the requirements for participation at the student symposia competitions.
