

Mailer 3 – Final Student Symposium Information

Maps, Directions and Parking

Traditionally Maps of the campus & directions have been shared in this Mailer. This year we have integrated a new addition that'll streamline getting around the campus. The planning team has worked extremely hard to ensure events are within a short distance of each other.

That said, we have integrated Google MyMaps to this year's Pacific Southwest Symposium.

Google MyMaps has allowed us to create our map and integrate within Google Maps. This will make navigating the campus a ton easier, help you keep up with the schedule of the events and enhance communication of any location changes.

Mailer 3 – Final Student Symposium Information

Here are a few tips to help you navigate Google MyMaps:

1. There are multiple layers (similar to GIS)
 - a. Base
 - b. Day 1: Wednesday, March 22, 2023
 - c. Day 2: Thursday, March 23, 2023
 - d. Day 3: Friday, March 24, 2023
 - e. Day 4: Saturday, March 25, 2023
2. The Base Layer will include the following:
 - a. General Locations on campus
 - b. Restaurants in the vicinity
 - c. Closing Banquet Venue
 - d. Lake Location
 - e. Attendee Parking information
3. Layers Day 1, Day 2 and Day 3 will be an accurate reflection of the schedule mentioned in Page 3.
 - a. Each area will on the map will be named after the location name and the description will contain the event name along with the time of the event. Here is how this will look like:

- b. This will allow you to also select your destination and get directions as it is integrated into Google Maps.
4. If you are using an organization account, you may get the following error:

We are sorry, but **you do not have access to Google My Maps**. Please contact your Organization Administrator for access.

- a. **SOLUTION:** Switch to a google account not managed by an organization (i.e. personal account)

5. This tool should not be used alone but in conjunction with the schedule provided in page 3 to ensure you have all the appropriate resources to navigate the campus and keep up with the schedule.
6. A few important things to note:
 - a. Parking is **NOT** covered by CSUN.
 - b. The designated parking lot for your vehicle and trailers is LOT B6. You will need to pay for all parking spots you are encroaching on.

Safety-First Culture Information

This year ASCE and California State University, Northridge are encouraging a Safety-First Culture during the symposium. We encourage all symposium participants to embrace this concept by thinking about safety in their activities coming to, returning from, and while at our symposium. We want **every** symposium participant to return home safe and healthy.

To generate a Safety-First Culture, we have designated Dr. Ricardo Medina as our symposium safety officer. Further, be on the lookout for safety information at the symposium, such as the location of first-aid supplies, who in the crowd has first-aid training, and Safety Moments.

What is a Safety Moment? A Safety Moment consists of a quick discussion on an activity-specific, site-specific, or general safety topic. The Safety Moment may be presented by the leader of an activity, the symposium safety officer, or a member of the host symposium planning team. We ask that all participants give their undivided attention to the Safety Moment discussion and embrace the safety-first concept.

If an injury does occur during the symposium, it should be reported to the competition head judge, symposium safety officer, or activity leader immediately so that appropriate action can be taken based on the injury. If it is a true emergency, please call 911 first.

Contact information for the symposium safety officer and key host school representatives are listed below. Please keep this list close during the symposium and we encourage you to program the symposium safety officer's phone number into your cell phone.

Symposium Safety Officer

Dr. Ricardo Medina – (818) 677-2166

Host School Faculty Advisor

Dr. Rais Ahmad – (818) 677-3419

In the spirit of a Safety Moment, here are some safe driving habits to keep in mind as you travel to the student symposium:

- Driving at the speed limit has proven to save lives.
- Do not drive when tired. Swap out drivers often.
- Minimum of two people awake at all times when wheels are rolling.
- Be aware of how larger/heavier vehicles behave when stopping or turning.
- Be aware of your surroundings when backing any vehicle, especially trailers. Better yet, avoid backing up at all, if possible.
- Use a spotter to watch when you must backup a vehicle.
- Slow down when the conditions warrant (rain, snow, darkness, pedestrians nearby).
- Perform a circle of safety around your vehicle to identify what is in your blind spots.

We hope **everyone** has a fun, healthy, and safe time at the ASCE Pacific Southwest Student Symposium.

Liability Waiver

NOTE: If you have not filled this out in Mailer 2, be sure to do so prior to participating in any competitions.

Instructions:

Save your completed, signed waiver with the following naming convention:

Competition: March 25, 8:00 AM – 2:00 PM located at E6 Parking lot

Notes: The format is 5 minutes of presentation and a short Q&A from the judges. To ensure that the treatment and presentation times of teams in the same group do not coincide, the teams start at different times within the same group. If you see a parentheses in front of your school's name that means you need to add that increment to any time specified in the schedule except for the set-up and walkthrough. The presentation is on site and you can set up your poster near your team's station. It is each team's responsibility to provide easel for their posters. In case of unforeseen circumstances, the schedule is subject to change.

Clarification on time added: For example, since UC Los Angeles has (+5) in front of their name, their construction starts at 1:10 PM instead of 1:00 PM. This is to ensure that the judges have enough time to go through all 3 teams in a given group.
