WELCOME TO THE ASCE STUDENT SYMPOSIUM

For over half a century, the ASCE Student Symposia have graced various regions of our nation. The Southeast Region, a vibrant tapestry of talent from Florida, Georgia, and Puerto Rico, is no exception. Triumph here, and students earn the coveted ticket to a national platform.

Set against the lively backdrop of Orlando, Florida, the ASCE Southeast Student Symposium is a dynamic three-day gathering. More than 600 ambitious students from 19 distinguished universities across Florida, Georgia, and Puerto Rico will come together, eager to demonstrate their engineering and construction expertise.

The symposium boasts a diverse array of 16 competitions. From the exhilarating challenge of racing concrete canoes to the precision required in assembling 20-foot model steel bridges, and innovative projects centered on sustainability and community resilience—every competition is a testament to the breadth and depth of engineering and construction.

The unique aspect of this event? The evaluators. Industry professionals, sponsors like you, will have a front-row seat to witness the future of engineering. Alongside 150 of your peers, you'll gauge the passion, talent, and determination these students bring to their projects.

For our top-tier sponsors, there's more in store. Enjoy the privilege of naming rights for select competitions, accompanied by custom signage. If you wish, take on the role of the head judge, and have a say in the allocation of judging slots. And if collaboration with a specific company is on your agenda, we're here to make it happen. Beyond the competitive arena, the symposium

offers a dedicated career fair and exhibitor hall. This dual setup ensures sponsors have ample opportunities for student recruitment and to foster meaningful business connections.

Your company's presence will be felt throughout. Your logo will take pride of place across the venue, and our dedicated symposium app will spotlight company ads and profiles of our esteemed judges.

Engaging with students directly? We've got you covered. Depending on your sponsorship level, you'll receive comprehensive resume packets from the student participants. And to ensure students are equally invested, we've integrated a competition centered around this initiative.

Traveling to the event? We will have a dedicated hotel to provide centralized accommodation for our judges and sponsors, complete with a relaxed evening networking session.

As the event draws to a close, all eyes will be on the ASCE Southeast Symposium Awards Banquet—a fitting conclusion where we'll celebrate achievements and recognize the invaluable support of our sponsors.

Engage in **UNIQUE RECRUITING & PROFESSIONAL NETWORKING**

In today's dynamic landscape, the engineering and construction industry is in dire need of innovative recruitment strategies to attract top-tier talent.

Traditional career fairs, while valuable, often limit interactions to brief exchanges that **barely scratch the surface of a student's potential**.

Spanning 19 prestigious universities from Florida, Georgia, and Puerto Rico, this event is not just another career fair. It's a vibrant showcase of budding talent, where students demonstrate their skills through real-world applications in various competitions. As a sponsor, you won't just hear about their capabilities—you'll witness them. Experience firsthand the ingenuity, dedication, and effort these future professionals bring to the table, far beyond the fleeting moments at typical recruitment events.

Moreover, the engineering and construction industry is evolving. Collaborative ventures like design-build projects are becoming the norm,

and the Southeast is bustling with diverse work opportunities. This symposium isn't solely a recruitment platform; it's a nexus for potential partnerships, a place to connect with over 150+ industry leaders, and a hub to foster business relations.

Our commitment is to offer more than just a platform for goodwill. We've designed every component of this event to deliver tangible benefits that justify your sponsorship. By supporting the ASCE Southeast Student Symposium, you're not just investing in an event—you're investing in the future of the engineering and construction industry.

WHAT DOES YOUR RECRUITING & NETWORKING EXPERIENCE LOOK LIKE?

**Thursday,
March 21, 2024:**

Arrival & Acquaintance

AFTERNOON: Begin your journey in Orlando with a warm welcome at our registration booth located at the University of Central Florida. While you're there, witness the impressive AISC Steel Bridge Competition Display. If you've got an exhibitor booth, this is the perfect time to set it up.

EVENING: Once settled, head over to our designated judges' hotel. We've arranged a delightful spread of hors d'oeuvres for an early evening networking event. It's an excellent opportunity to mingle with peers, discuss potential collaborations, or simply plan break-off dinners with newfound connections.

**Friday,
March 22, 2024:**

Engage & Evaluate

MORNING TO AFTERNOON: Gear up for a day brimming with activity. Whether you're judging or engaging at the career fair, there's plenty to keep you occupied. And when hunger strikes, rest assured, we've got lunch lined up for you. Today's focus is on presentation-style competitions, offering a glimpse of students in a polished, professional setting. Remember, this is the sole day for the traditional career fair and exhibitor hall, so make the most of it!

**Saturday,
March 23, 2024:**

Relax & Recognize

DAYTIME: If you're on the judging panel for today, prepare for a serene setting at the Bill Frederick Park at Turkey Lake. Those not judging can relish the park's natural beauty, making it an ideal backdrop for laid-back networking with students and fellow sponsors.

EVENING: As the sun sets, the excitement builds. The grand ASCE Southeast Symposium Awards Banquet awaits. Here, sponsors are showcased throughout the venue. For our Obsidian and Gold sponsors, take the stage to share insights about your company and present awards for your sponsored competitions.
