assembly under timed construction conditions at  
the competition. Bridges are also load-tested,  
weighed, and judged on aesthetics.

## Overview

ASCE and American Institute of Steel Construction (AISC) are partnering to offer the Student Steel Bridge Competition (SSBC) at the regional ASCE Student Symposia. This competition challenges students to extend their classroom knowledge to a practical and hands-on steel-design project that grows their interpersonal and professional skills, encourages innovation, and fosters impactful relationships between students and industry professionals.

## Objective

Each student team develops a concept for a scale-model steel bridge approximately 20 feet and to carry 2,500 pounds according to the competition rules. The team must determine how to fabricate their bridge and then plan for an efficient

## Eligibility

Only one (1) team per school may compete in the SSBC. Please review the national rules for the Student Steel Bridge Competition specifications on team size and competition requirements. Deliverables should conform to the national rules.

## Questions

The website [aisc.org/ssbc](https://aisc.org/ssbc) lists clarifications of the rules. Teams may submit questions via a form on that website, but should first read the previously posted clarifications, reread this rules document carefully in its entirety, and review the Host and Competitors Guides at [aisc.org/ssbc](https://aisc.org/ssbc). Submitters' names and affiliations must accompany clarification requests and will be posted with the questions and answers.
